PROFESSIONAL SUMMARY

Full-Stack Developer with 5 years of hands-on experience—3 years of academic training and 2+ years developing independent, real-world applications. Proficient in designing scalable front-end and back-end solutions using modern frameworks, with experience building real-time, interactive projects including a self-care app, social network, chat app, portfolio website, and promotional website. Committed to continuous learning and integrating emerging technologies.

TECH STACK

- TypeScript
- React
- Next.js
- Node.js
- Tailwind
- Convex
- SQL
- Postman
- Adobe CC
- Git, GitHub

WORK EXPERIENCE

Full-Stack Development 2017- PRESENT

- Client Website Development – Created a functional website for a client, managing design, development, and deployment.
- Bootcamp Projects – Developed skills through intensive training and collaborative projects.
- Personal Projects – Designed, built and deployed independent projects.
- Academic Learning & Projects – Completed hands-on projects during academic coursework.

Outside Full-Stack Development

- Sales & Customer Service – Call-center and on-site sales, engaging customers and closing deals.
- Volunteer Work – Worked with an association supporting low-income communities and served food to impaired individuals.
- Seasonal Roles – Supervised children in summer programs and assisted with beach operations.
